## Jobs Report:

### **Revised January and Preliminary February Jobs Figures Released**

Indianapolis, Ind.—Today the Indiana Department of Workforce Development released revised January and preliminary February 2005 payroll employment figures for the state.

Indiana's seasonally adjusted job figures reported a total of 2,956,500 jobs for the month of January, still 59,500 jobs off its peak in 2000. February preliminary data indicated an increase of 7,400 jobs over the previous month.

Ron Stiver, Commissioner of the Department of Workforce Development, stated, "While we are pleased to see job growth for the month of February, much work remains to recapture the 59,500 Hoosier jobs lost since May of 2000."

#### Seasonally adjusted figures:

The nation's seasonally adjusted figures for the month of February indicated the addition of 262,000 jobs over the previous month as well as an increase of 2,377,000 jobs since February 2004. Of that growth, Indiana contributed by adding 7,400 jobs over January 2005 and 58,900 jobs from a year ago. The number of jobs in Indiana according to January revised data was 2,956,500 and is up a total of 45,400 from January 2004, whereas February 2005 preliminary figures were 2,963,900.

#### Non-Seasonally adjusted figures:

Indiana's February preliminary non-seasonally adjusted payroll estimates reported 2,930,400 jobs for the state. This figure marks an increase of 19,100 jobs from January's total of 2,911,300. Looking at year to year data, February's total marks an increase of 73,100 jobs over February 2004. January's revised total marks an increase of 60,100 jobs from January 2004.

#### Non-Seasonally Adjusted Metropolitan Statistical Areas:

Looking at the preliminary job figures in the state's Metropolitan Statistical Areas (MSA), the Anderson area saw a small increase of 200 jobs in February compared to January and 900 jobs added from February 2004. Bloomington's metropolitan statistical area witnessed an increase of 600 jobs and marks a total of 400 jobs increased from February 2004. The Columbus area increased 200 jobs during the month of February and a total of 1,900 jobs have been added in comparison to the same figure a year ago. Also, Elkhart reported its total of 129,800 jobs, which is up 600 jobs from January and 8,000 jobs from a year ago.

Evansville reported an increase of 1,000 jobs for the month bringing their February non-seasonally adjusted total to 175,600. Fort Wayne reported the addition of 400 jobs for February and is also reporting 1,600 job increase

from February 2004, while the Gary MSA reported their total of 272,500 jobs which is an increase of 900 jobs from January Revised and February preliminary payroll employment figures/add 1

January and an increase of 5,500 from a year ago. Indianapolis total for February was 877,600 which marks an increase of 2,900 jobs for February compared to January and a total increase of 24,400 from a year ago. Meanwhile, Kokomo reported an employee total 48,500, indicating a gain of 600 jobs for the month of February yet a net loss of 700 jobs from February 2004.

The Lafayette MSA employment level increased by a total of 800 for the month of February and is up a total of 1,300 jobs from a year ago. Michigan City remained the same from January reporting a job total of 46,000 and a net increase of 600 jobs from February 2004, while Muncie added 900 jobs for the month of February with a reporting total of 54,400 jobs. The South Bend MSA posted a total of 144,400 employed, leading to an increase of 3,600 from February of 2004, while Terre Haute posted an employment total of 74,800, an increase of 900 from a year ago.

The Indiana Department of Workforce Development is charged with continually improving the Hoosier workforce by assisting companies to create new jobs and improve employee skills. The agency offers a variety of training and educational grants, partners with Indiana's 27 WorkOne Centers, administers the unemployment insurance system, provides labor market information, assists employers with preparing workers for layoffs and closures and operates a statewide job placement service.

Technical Notes:

- Payroll employment is calculated through a monthly survey of 7,500 Hoosier employers and is based on reported payroll figures. It is an estimate of non-agricultural jobs in Indiana businesses and does not include self-employed or agricultural workers.
- The survey that calculates the payroll employment estimate is conducted by the U.S. Bureau of Labor Statistics and is conducted during the week of the 12<sup>th</sup> of the month.
- In calculating employment figures, two different types of calculations are provided. The first, *non-seasonally adjusted*, provides information without taking into account the effects of seasonal trends. In calculating the *seasonally adjusted* information, employment that follows more or less a regular pattern each year, including holiday or summer employment is factored out of the estimate. The adjustments make it easier to observe the cyclical and other non-seasonal movements.
- For most accurate analysis, please use revised data sets and not preliminary estimates

## NOTE:

Seasonally adjusted supersector employment will not add to Total Non-Farm employment due to difficulties in seasonally adjusting employment for Mining &amp; Natural Resources.

Employment for this sector is included in the Total Non-Farm employment.
